"The Morning Post says" the Euphrates Valley from the region of myths and possibilities into that of actual fact. Mr. Cazalet's statements vo to show that pratical efforts have been made for starting the construction of the line. Of course attempt. Although it has been proved conclusively that the railway would be of immense advantage to this country above all others, and although English statesmen have recommended the making of this shortest of roads to India, still the Liberal vis inertim in matters regarding the development and safety of the empire has not been overcome, and if the line be made no credit therefore, will be due to the Gladstone Administration. Frigate enterprise has come to the resour. promoters have doubt directly with the Porte. It is true that the Ottoman Government has not entertained the idea of the construction of a railway from the shores of the Mediterranean to the Persian Gulf, but it has approved of a section of the line, from near Tripoli to Aleppo. The Sultan has not signed the concession giving his permission and a grant of the land, but doubtless he will only be too glad to belp forward a company for developing the resources of the empire in Syria; for it is proposed to colonise the waste but fer ile conner mong the proposed line by Jewish immigrants from Russia and Poland. Mr. Cazalet, having obtained the concurrence of the Turkish Ministers, not unnaturally expects the consent of the Sultan. It is greatly to be hoped that no unlooked for difficulties will intervene. We must remember, however, that the fast and loose treatment of: Turkey by England has, to say the least of it, loosened the bonds of friendship between the two countries, and Englishmen and English companies may not be regarded at Constantinople with the same favour as of old. The railway from Tripoli to Aleppo may be considered as the thin end of the wedge. If that line be made, and if it prove successful, then it will be a mere matter of time as regards its extension. of one of the cities, called Luyung, gold was The scheme promoted by Mr. Cazalet takes the line of the river Euphrates near Alappo. Following the right or southern bank of that river. it proceeds to the town of Hit, not far from Bagdad, to which there would be a branch crossing the Euphrates. From Hit the line would ran down the valley to Grane, at the head of the way would be extended along the Persian shore of the gulf to Beluchistan, and so on to connect with the Indian railway system; and this line would be nearly parallel to a Russian one from the Caspien to Afghanistan. In the Case of Percels for India a declaration of contents and value is required, a printed form for which is supplied gratis. The Registration of Parcels for India and Ceylon is compulsory.

RATES OF POSTAGE. Post Cards, each 3 Cents Books, Patterns, and Commercial) Papers, per 2 oz. Newspapers & Prices Current, each . 2 Cents. Registration with return receipt ... Commercial papers signify such papers as, though written by hand, do not bear the charac-

ter of an actual or personal correspondence, such as invoices, deeds, copied music, &c. The charge is the same as for Books, but all markets of and under 4 oz. weight are charged 5 Cents. LETTERS FOR THE UNITED STATES BY SAILING

When it is desired to forward letters to the United States by a sailing ship which is not notified as carrying a mail, it is only necessary to post the letters in the ordinary way, marked with the name of the ship, and prepaid 10 cents per half ounce as usual. The Post Office then indertakes the duty of obtaining notice of departure and despatching the correspondence. It is requested that the letters be posted if possible at least one day before the date fixed for sailing;

Persons who send Musters of Tea through the Post in Tins are requested to have them made flat or square instead of round, as it is impossible to pack round tine securely in the mail bags. It is believed that the ten will travel more safely in flat ting, which are not so liable as round ones to be bulged in. 4 by 8 by 11 inches is suggested as a good

size. The time should not have sharp corners.
